

Helping to Make a Bright Green Future

We are deeply committed to historic preservation, improvement of our designs, quality of our products, meeting the needs of our customer, and our part in protecting our environment.

Energy Conservation

Our company strives toward developing products that help minimize your carbon footprint. We offer the following energy efficient components:

- Multiple Glazing Options (Insulated, Laminated, Low-E, Argon Gas, Variable Air Spaces)
- Frame Types
- Operating Types
- Duralite Warm Edge Spacer

LEED Qualified Materials

We know that specific material availability is important. If your project requires a particular LEED rating we can help by providing:

- Certified Wood
- Optimized Energy Performance Products
- Low Emitting (Paints/Caulks/Adhesives)
- Re-Usable or Recycled Material

Performance Enhancing Options

Boston Sash & Millwork's experienced window & door designers can also dramatically improve the performance of your historic window using the latest technologies in performance enhancing options.

- Weather Stripping
- Finish
- Balance Systems
- Adhesives
- Sealants
- Sound Attenuation

Project Management

Our goal is to establish a professional relationship with our customer which allows us to successfully complete specific project goals and objectives. Our mission is to achieve all of the project goals while honoring the typical constraints of scope and budget. Our staff will assist in:

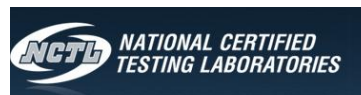

- Planning
- Organization
- Resource Management

Historical Requirements

Boston Sash has always been deeply committed to Historic Preservation. The Company was formed to make replacement sash originally fabricated by the old New England Yankee Craftsmen. Our products and practices have been approved by historical committees throughout New England with the specifications you need:

- Restoration Glass
- Authentic Profiles
- Appropriate proportion
 - Narrow Muntin
 - Sill Thickness
 - Stile & Rail Dimensions
- Balance Options
 - Weight & Chain
 - Pulley & Rope
 - Slip Head
- Finish Colors

Let us help you with your next window & door project!
